

# ***Flytec 150***

Economic, Compact,  
100% Inspection Bidirectional Rewinder

# Flytec 150

## One stop solution for 100% inspection, inkjet printing and rewinding

- Entry level machine for 100% inspection of Pharmaceutical labels and security products
- 250mm web width.
- Capable of backside numbering using a variety of inkjet solutions or laser numbering systems
- More autonomy – will not back side print on a defected label ensuring 100% inspected and finished labels.
- Leader and tail option ensures all labels are inspected and finished
- Ensures 100% accurate finished product with Fleyevision inspection system
- Full remote support from ABG Int.
- Bidirectional Rewinder ensures all labels are inspected and error free

### fleyeVision Inspection System

Capable of detecting print and colour quality

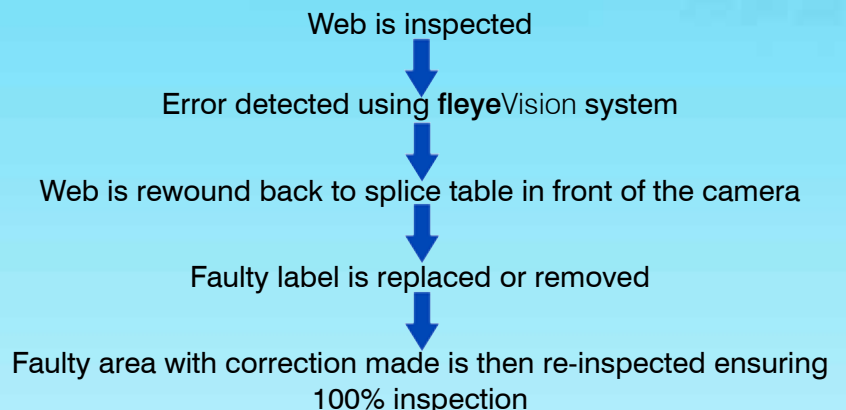

#### Optional Modules

- Full Pharmaceutical control with security protocols and full reports CFR21 part 11
- Barcode inspection and decoding and comparison of 1D or 2D barcodes
- OCR inspection and decoding and comparison
- Braille control inspects presence and condition of all Braille dots
- PDF comparison allows all finished labels to meet exact demands of end user
- Gap control – inspect all specialist die cut and print jobs where distances are critical between lines, edges and symbols are critical

### Workflow

### Inkjet Options

With hundreds of successful worldwide installations of the Flytec 150 it is available with a variety of inkjet options. Whatever the preferred option the software is capable of recognising labels with errors. This ensures no label is back printed with data until it has been edited and approved by the system

To learn more about any of the above modules or the **F150**, please contact your nearest A B Graphic International office or distributor.

Alternatively you can contact A B Graphic International direct.
